Leisure Management

The leisure industry is dynamic and fast-moving and the nature of career opportunities in the industry is changing. This programme focuses on the broad leisure industry and includes a professional internship, practical modules and integrated continuous assessment. Practical modules include gym supervision and a safety programme for leisure management.

What you'll study

There is a strong emphasis on business and management subjects including marketing, human resource management, leisure law, management and accounting. Successful graduates will be prepared for entry into the sector at supervisory management level in areas such as leisure centres, theme parks, aquatic centres, golf clubs, tennis clubs, hotel leisure centres and other recreation-related developments. Within the optional practical modules students are assessed for recognised qualifications in Lifesaving and Personal Training. Applicants should note that there is a strong emphasis on academic performance generally. Each student must complete an internship in industry during the 2nd semester of year 2. This internship may be undertaken in Ireland or abroad.

BSc Honours Degree Level 8
